

# MEGA MARK™ A30

**Innovation and High Performance in a new Paint Marker**

## User Friendly

The 3/4" barrel is easy to grip. **greenlabel™** paint resists outdoor and rough use conditions and dries fast. The replaceable tip has good resistance to abrasion. Easy, safe, sensible.

## Broad Tip Marking

A30's larger, more visible marks are about three times the size of marks made with a medium point marker. Better visibility, easier to read.

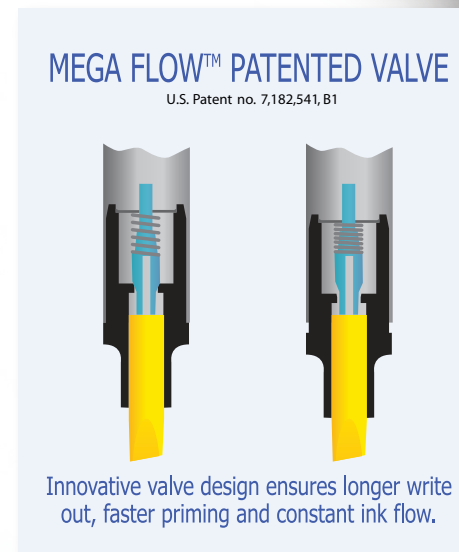

## Quick Draw Holster

Keeps A30 ready to use anytime, anywhere. Built-in cap eliminates the need to recap. Allows for one hand operation, especially helpful when wearing gloves.

Durable Tip resists drying and abrasion.

Large supply of **greenlabel™** xylene-free paint

Ribbed cap prevents marker from rolling and fits on back

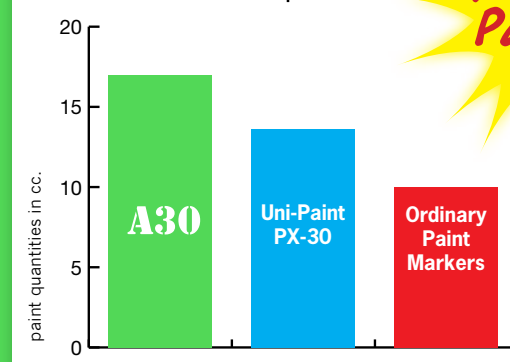

Heavy Duty 3/4" diameter aluminum barrel

## Best Value!

A30 contains 17 cc. of paint: 25% more than Uni-Paint PX-30, and 41% more than ordinary paint markers.

Paint Content Comparison

**More Paint!**

Uni-Paint PX-30 is a trademark of Sanford Corp.

Item#	Color
